SUBJECT: BLUE LANTERN CHECK ON LICENCE 994633 COMPLETED

REF: STATE 17025

(SBU) On Monday 4, May Pol/Econoff and OSC Chief conducted a Blue Lantern check on license 994633 to verify that defense hardware exported to Senegal's Air Force was being used for the stated purpose. Embassy Dakar can confirm that:

- 2 AN/ARC-182 (V) Radios sets were mounted in two mi-17 helicopters
- 1 AN/ARC-182 (V) Radios set was stored in the base's warehouse

Poloff and OSC chief can also confirm seeing 1 RT-1250A/ARC receiver transmitter; 1 MT-4935/ARC mounting base; 1 C-12109/arc remote Control; 1 Sensor systems S65-8282-34 Antenna; and 1 set of new electrical connectors. Poloff and OSC chief verified that the serial numbers matched those sent in the Blue Lantern request. It is our assessment that the Armee de l'Air du Senegal has received the items, has integrated them for appropriate purposes, and has maintained effective inventory control on these items.
